

Global Space Valves Market Research Report 2026(Status and Outlook)

<https://marketpublishers.com/r/G0FE5452E3BFEN.html>

Date: March 2026

Pages: 144

Price: US\$ 2,980.00 (Single User License)

ID: G0FE5452E3BFEN

Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Space Valves competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. In 2024, global Space Valves production reached approximately 35.54 k units with an average global market price of around US\$ 1,860 per unit. In 2024, the global 's total production capacity of Space Valves reached 42 k units. The industry average gross profit margin of this product reached 33%. Space valves are an indispensable and important part of the aerospace system. They are responsible for controlling various fluid media in the spacecraft, including liquids, gases, and steam, etc., to ensure the normal operation of the spacecraft and the smooth completion of the mission. The upstream supply chain mainly includes the provision of special materials, precision parts, and basic technologies for valve manufacturing. This involves new materials such as corrosion-resistant special alloys and high-performance sealing polymers used for valve bodies and cores; actuators such as micro-motors and piezoelectric ceramics used to realize actions; and high-precision sensors and chips used for status sensing. The midstream is the core of the supply chain, namely the research, design, manufacturing, testing, and assembly of spacecraft valve bodies. Companies in this segment (such as Moog and Marotta Controls) conduct innovative valve design, precision machining, assembly, and extremely demanding ground testing and verification according to the specific requirements of space missions. They transform upstream raw materials and components into final valve products that meet the requirements of extreme environments. Their core competitiveness lies in their deep technological accumulation, rich on-orbit experience, and a quality control system with "zero tolerance" for reliability. The downstream supply chain refers to the assembly units and operators that integrate valves into various space systems and ultimately apply them to the entire rocket and

satellite. Valve manufacturers deliver their products to rocket companies like SpaceX and Blue Origin, or satellite manufacturers like Lockheed Martin and Boeing, who then integrate the valves into subsystems such as propulsion and life support systems. Ultimately, these valve-equipped spacecraft are used by space agencies (such as NASA and ESA) and commercial companies for specific space missions including communication, navigation, remote sensing, manned flight, and deep space exploration. Currently, a new round of space race is unfolding globally. This is no longer a contest between two superpowers as in the Cold War, but a comprehensive competition involving multiple countries and public-private partnerships. The US's Artemis lunar return program, China's manned spaceflight and space station construction, and the deep space exploration projects of the EU and India, among others, all provide a highly certain expectation for the frequency of space launches. These ambitious nationally led programs not only require a large number of highly reliable valves themselves, but more importantly, they instill confidence in the entire industry, laying the infrastructure and talent foundation for market demand, serving as the most stable "ballast" for the market. Technology itself is both a driving factor and creates new opportunities. On the one hand, electric valves, due to their precise control and high system integration, are gradually replacing traditional pneumatic valves and becoming the mainstream solution, leading to an increase in product unit price and value. On the other hand, advancements in design and materials, such as 3D printing (additive manufacturing), allow for the creation of lighter, more complex, and higher-performance valve body structures; while the application of new materials continuously expands the temperature, pressure, and corrosion resistance limits of valves. These technological innovations are not only improving product performance but are also changing the design and manufacturing paradigm of valves. Commercial space companies, exemplified by SpaceX, have significantly reduced launch costs through technologies such as reusable rockets. This has triggered a positive cycle: lower launch costs ? lower barriers to satellite manufacturing and launch ? a surge in the number of satellites (especially low-Earth orbit communication constellations) ? an explosive growth in demand for spacecraft valves. This demand for "mass production" forces valve suppliers to explore low-cost, batch, and modular manufacturing solutions while ensuring high reliability. This provides opportunities for new players with innovative capabilities and cost control advantages to enter the market and is also driving the reshaping of the entire supply chain.

The global Space Valves market size was estimated at USD 66.1 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.30% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Space Valves market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Space Valves market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Space Valves market.

Global Space Valves Market: Market Segmentation Analysis

This research report provides a detailed segmentation of the market by region (country), key manufacturers, product type, and application. Market segmentation divides the overall market into distinct subsets based on factors such as product categories, end-user industries, geographic locations, and other relevant criteria.

A clear understanding of these market segments enables decision-makers to tailor their product development, sales, and marketing strategies more effectively to meet the unique needs of each segment. Leveraging market segmentation insights can significantly enhance targeted approaches, optimize resource allocation, and accelerate product innovation cycles by aligning offerings with the specific demands of diverse customer groups.

Key Company

Denis de Ploeg
Glavkosmos

Marotta Controls
Moog
Nammo AS
Omnidea-RTG
Orbital Propulsion Centre
St?hr Armaturen
The Lee Company
Triton Space Technologies
VACCO Industries
Valcor Engineering Corporation

Market Segmentation (by Type)

SmallSat Valves
CubeSat Valves

Market Segmentation (by Application)

Military
Commercial

Geographic Segmentation

North America (USA, Canada, Mexico)
Europe (Germany, UK, France, Russia, Italy, Rest of Europe)
Asia-Pacific (China, Japan, South Korea, India, Southeast Asia, Rest of Asia-Pacific)
South America (Brazil, Argentina, Columbia, Rest of South America)
The Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria, South Africa, Rest of MEA)

Key Benefits of This Market Research:

Industry drivers, restraints, and opportunities covered in the study
Neutral perspective on the market performance
Recent industry trends and developments
Competitive landscape & strategies of key players
Potential & niche segments and regions exhibiting promising growth covered
Historical, current, and projected market size, in terms of value
In-depth analysis of the Space Valves Market

Overview of the regional outlook of the Space Valves Market:

Customization of the Report

In case of any queries or customization requirements, please connect with our sales team, who will ensure that your requirements are met.

Chapter Outline

Chapter 1 mainly introduces the statistical scope of the report, market division standards, and market research methods.

Chapter 2 is an executive summary of different market segments (by region, product type, application, etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the Space Valves Market and its likely evolution in the short to mid-term, and long term.

Chapter 3 makes a detailed analysis of the market's competitive landscape of the market and provides the market share, capacity, output, price, latest development plan, merger, and acquisition information of the main manufacturers in the market.

Chapter 4 is the analysis of the whole market industrial chain, including the upstream and downstream of the industry, as well as Porter's five forces analysis.

Chapter 5 introduces the latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.

Chapter 6 provides the analysis of various market segments according to product types, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.

Chapter 7 provides the analysis of various market segments according to application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.

Chapter 8 provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and capacity of each country in the world.

Chapter 9 shares the main producing countries of Space Valves, their output value, profit level, regional supply, production capacity layout, etc. from the supply side.

Chapter 10 introduces the basic situation of the main companies in the market in detail, including product sales revenue, sales volume, price, gross profit margin, market share, product introduction, recent development, etc.

Chapter 11 provides a quantitative analysis of the market size and development potential of each region in the next five years.

Chapter 12 provides a quantitative analysis of the market size and development potential of each market segment in the next five years.

Chapter 13 is the main points and conclusions of the report.

Key Reasons to Buy this Report:

Access to date statistics compiled by our researchers. These provide you with historical and forecast data, which is analyzed to tell you why your market is set to change

This enables you to anticipate market changes to remain ahead of your competitors

You will be able to copy data from the Excel spreadsheet straight into your marketing plans, business presentations, or other strategic documents

The concise analysis, clear graph, and table format will enable you to pinpoint the information you require quickly

Provision of market value data for each segment and sub-segment

Indicates the region and segment that is expected to witness the fastest growth as well as to dominate the market

Analysis by geography highlighting the consumption of the product/service in the region as well as indicating the factors that are affecting the market within each region

Competitive landscape which incorporates the market ranking of the major players, along with new service/product launches, partnerships, business expansions, and acquisitions in the past five years of companies profiled

Extensive company profiles comprising of company overview, company insights, product benchmarking, and SWOT analysis for the major market players

The current as well as the future market outlook of the industry concerning recent developments which involve growth opportunities and drivers as well as challenges and restraints of both emerging as well as developed regions

Includes in-depth analysis of the market from various perspectives through Porter's five

forces analysis

Provides insight into the market through Value Chain

Market dynamics scenario, along with growth opportunities of the market in the years to come

6-month post-sales analyst support

Customization of the Report

In case of any queries or customization requirements, please connect with our sales team, who will ensure that your requirements are met.

Contents

1 RESEARCH METHODOLOGY AND STATISTICAL SCOPE

- 1.1 Market Definition and Statistical Scope of Space Valves
- 1.2 Key Market Segments
 - 1.2.1 Space Valves Segment by Type
 - 1.2.2 Space Valves Segment by Application
- 1.3 Methodology & Sources of Information
 - 1.3.1 Research Methodology
 - 1.3.2 Research Process
 - 1.3.3 Market Breakdown and Data Triangulation
 - 1.3.4 Base Year
 - 1.3.5 Report Assumptions & Caveats

2 SPACE VALVES MARKET OVERVIEW

- 2.1 Global Market Overview
 - 2.1.1 Global Space Valves Market Size (M USD) Estimates and Forecasts (2020-2035)
 - 2.1.2 Global Space Valves Sales Estimates and Forecasts (2020-2035)
- 2.2 Market Segment Executive Summary
- 2.3 Global Market Size by Region

3 SPACE VALVES MARKET COMPETITIVE LANDSCAPE

- 3.1 Company Assessment Quadrant
- 3.2 Global Space Valves Product Life Cycle
- 3.3 Global Space Valves Sales by Manufacturers (2020-2025)
- 3.4 Global Space Valves Revenue Market Share by Manufacturers (2020-2025)
- 3.5 Space Valves Market Share by Company Type (Tier 1, Tier 2, and Tier 3)
- 3.6 Global Space Valves Average Price by Manufacturers (2020-2025)
- 3.7 Manufacturers? Manufacturing Sites, Areas Served, and Product Types
- 3.8 Space Valves Market Competitive Situation and Trends
 - 3.8.1 Space Valves Market Concentration Rate
 - 3.8.2 Global 5 and 10 Largest Space Valves Players Market Share by Revenue
 - 3.8.3 Mergers & Acquisitions, Expansion

4 SPACE VALVES INDUSTRY CHAIN ANALYSIS

- 4.1 Space Valves Industry Chain Analysis
- 4.2 Market Overview of Key Raw Materials
- 4.3 Midstream Market Analysis
- 4.4 Downstream Customer Analysis

5 THE DEVELOPMENT AND DYNAMICS OF SPACE VALVES MARKET

- 5.1 Key Development Trends
- 5.2 Driving Factors
- 5.3 Market Challenges
- 5.4 Industry News
 - 5.4.1 New Product Developments
 - 5.4.2 Mergers & Acquisitions
 - 5.4.3 Expansions
 - 5.4.4 Collaboration/Supply Contracts
- 5.5 PEST Analysis
 - 5.5.1 Industry Policies Analysis
 - 5.5.2 Economic Environment Analysis
 - 5.5.3 Social Environment Analysis
 - 5.5.4 Technological Environment Analysis
- 5.6 Global Space Valves Market Porter's Five Forces Analysis
 - 5.6.1 Global Trade Frictions
 - 5.6.2 U.S. Tariff Policy ? April 2025
 - 5.6.3 Global Trade Frictions and Their Impacts to Space Valves Market
- 5.7 ESG Ratings of Leading Companies

6 SPACE VALVES MARKET SEGMENTATION BY TYPE

- 6.1 Evaluation Matrix of Segment Market Development Potential (Type)
- 6.2 Global Space Valves Sales Market Share by Type (2020-2025)
- 6.3 Global Space Valves Market Size by Type (2020-2025)
- 6.4 Global Space Valves Price by Type (2020-2025)

7 SPACE VALVES MARKET SEGMENTATION BY APPLICATION

- 7.1 Evaluation Matrix of Segment Market Development Potential (Application)
- 7.2 Global Space Valves Market Sales by Application (2020-2025)
- 7.3 Global Space Valves Market Size (M USD) by Application (2020-2025)

7.4 Global Space Valves Sales Growth Rate by Application (2020-2025)

8 SPACE VALVES MARKET SALES BY REGION

8.1 Global Space Valves Sales by Region

8.1.1 Global Space Valves Sales by Region

8.1.2 Global Space Valves Sales Market Share by Region

8.2 Global Space Valves Market Size by Region

8.2.1 Global Space Valves Market Size by Region

8.2.2 Global Space Valves Market Size by Region

8.3 North America

8.3.1 North America Space Valves Sales by Country

8.3.2 North America Space Valves Market Size by Country

8.3.3 U.S. Market Overview

8.3.4 Canada Market Overview

8.3.5 Mexico Market Overview

8.4 Europe

8.4.1 Europe Space Valves Sales by Country

8.4.2 Europe Space Valves Market Size by Country

8.4.3 Germany Market Overview

8.4.4 France Market Overview

8.4.5 U.K. Market Overview

8.4.6 Italy Market Overview

8.4.7 Spain Market Overview

8.5 Asia Pacific

8.5.1 Asia Pacific Space Valves Sales by Region

8.5.2 Asia Pacific Space Valves Market Size by Region

8.5.3 China Market Overview

8.5.4 Japan Market Overview

8.5.5 South Korea Market Overview

8.5.6 India Market Overview

8.5.7 Southeast Asia Market Overview

8.6 South America

8.6.1 South America Space Valves Sales by Country

8.6.2 South America Space Valves Market Size by Country

8.6.3 Brazil Market Overview

8.6.4 Argentina Market Overview

8.6.5 Columbia Market Overview

8.7 Middle East and Africa

- 8.7.1 Middle East and Africa Space Valves Sales by Region
- 8.7.2 Middle East and Africa Space Valves Market Size by Region
- 8.7.3 Saudi Arabia Market Overview
- 8.7.4 UAE Market Overview
- 8.7.5 Egypt Market Overview
- 8.7.6 Nigeria Market Overview
- 8.7.7 South Africa Market Overview

9 SPACE VALVES MARKET PRODUCTION BY REGION

- 9.1 Global Production of Space Valves by Region(2020-2025)
- 9.2 Global Space Valves Revenue Market Share by Region (2020-2025)
- 9.3 Global Space Valves Production, Revenue, Price and Gross Margin (2020-2025)
- 9.4 North America Space Valves Production
 - 9.4.1 North America Space Valves Production Growth Rate (2020-2025)
 - 9.4.2 North America Space Valves Production, Revenue, Price and Gross Margin (2020-2025)
- 9.5 Europe Space Valves Production
 - 9.5.1 Europe Space Valves Production Growth Rate (2020-2025)
 - 9.5.2 Europe Space Valves Production, Revenue, Price and Gross Margin (2020-2025)
- 9.6 Japan Space Valves Production (2020-2025)
 - 9.6.1 Japan Space Valves Production Growth Rate (2020-2025)
 - 9.6.2 Japan Space Valves Production, Revenue, Price and Gross Margin (2020-2025)
- 9.7 China Space Valves Production (2020-2025)
 - 9.7.1 China Space Valves Production Growth Rate (2020-2025)
 - 9.7.2 China Space Valves Production, Revenue, Price and Gross Margin (2020-2025)

10 KEY COMPANIES PROFILE

- 10.1 Denis de Ploeg
 - 10.1.1 Denis de Ploeg Basic Information
 - 10.1.2 Denis de Ploeg Space Valves Product Overview
 - 10.1.3 Denis de Ploeg Space Valves Product Market Performance
 - 10.1.4 Denis de Ploeg Business Overview
 - 10.1.5 Denis de Ploeg SWOT Analysis
 - 10.1.6 Denis de Ploeg Recent Developments
- 10.2 Glavkosmos
 - 10.2.1 Glavkosmos Basic Information

- 10.2.2 Glavkosmos Space Valves Product Overview
- 10.2.3 Glavkosmos Space Valves Product Market Performance
- 10.2.4 Glavkosmos Business Overview
- 10.2.5 Glavkosmos SWOT Analysis
- 10.2.6 Glavkosmos Recent Developments
- 10.3 Marotta Controls
 - 10.3.1 Marotta Controls Basic Information
 - 10.3.2 Marotta Controls Space Valves Product Overview
 - 10.3.3 Marotta Controls Space Valves Product Market Performance
 - 10.3.4 Marotta Controls Business Overview
 - 10.3.5 Marotta Controls SWOT Analysis
 - 10.3.6 Marotta Controls Recent Developments
- 10.4 Moog
 - 10.4.1 Moog Basic Information
 - 10.4.2 Moog Space Valves Product Overview
 - 10.4.3 Moog Space Valves Product Market Performance
 - 10.4.4 Moog Business Overview
 - 10.4.5 Moog Recent Developments
- 10.5 Nammo AS
 - 10.5.1 Nammo AS Basic Information
 - 10.5.2 Nammo AS Space Valves Product Overview
 - 10.5.3 Nammo AS Space Valves Product Market Performance
 - 10.5.4 Nammo AS Business Overview
 - 10.5.5 Nammo AS Recent Developments
- 10.6 Omnidea-RTG
 - 10.6.1 Omnidea-RTG Basic Information
 - 10.6.2 Omnidea-RTG Space Valves Product Overview
 - 10.6.3 Omnidea-RTG Space Valves Product Market Performance
 - 10.6.4 Omnidea-RTG Business Overview
 - 10.6.5 Omnidea-RTG Recent Developments
- 10.7 Orbital Propulsion Centre
 - 10.7.1 Orbital Propulsion Centre Basic Information
 - 10.7.2 Orbital Propulsion Centre Space Valves Product Overview
 - 10.7.3 Orbital Propulsion Centre Space Valves Product Market Performance
 - 10.7.4 Orbital Propulsion Centre Business Overview
 - 10.7.5 Orbital Propulsion Centre Recent Developments
- 10.8 St?hr Armaturen
 - 10.8.1 St?hr Armaturen Basic Information
 - 10.8.2 St?hr Armaturen Space Valves Product Overview

- 10.8.3 St?hr Armaturen Space Valves Product Market Performance
- 10.8.4 St?hr Armaturen Business Overview
- 10.8.5 St?hr Armaturen Recent Developments
- 10.9 The Lee Company
 - 10.9.1 The Lee Company Basic Information
 - 10.9.2 The Lee Company Space Valves Product Overview
 - 10.9.3 The Lee Company Space Valves Product Market Performance
 - 10.9.4 The Lee Company Business Overview
 - 10.9.5 The Lee Company Recent Developments
- 10.10 Triton Space Technologies
 - 10.10.1 Triton Space Technologies Basic Information
 - 10.10.2 Triton Space Technologies Space Valves Product Overview
 - 10.10.3 Triton Space Technologies Space Valves Product Market Performance
 - 10.10.4 Triton Space Technologies Business Overview
 - 10.10.5 Triton Space Technologies Recent Developments
- 10.11 VACCO Industries
 - 10.11.1 VACCO Industries Basic Information
 - 10.11.2 VACCO Industries Space Valves Product Overview
 - 10.11.3 VACCO Industries Space Valves Product Market Performance
 - 10.11.4 VACCO Industries Business Overview
 - 10.11.5 VACCO Industries Recent Developments
- 10.12 Valcor Engineering Corporation
 - 10.12.1 Valcor Engineering Corporation Basic Information
 - 10.12.2 Valcor Engineering Corporation Space Valves Product Overview
 - 10.12.3 Valcor Engineering Corporation Space Valves Product Market Performance
 - 10.12.4 Valcor Engineering Corporation Business Overview
 - 10.12.5 Valcor Engineering Corporation Recent Developments

11 SPACE VALVES MARKET FORECAST BY REGION

- 11.1 Global Space Valves Market Size Forecast
- 11.2 Global Space Valves Market Forecast by Region
 - 11.2.1 North America Market Size Forecast by Country
 - 11.2.2 Europe Space Valves Market Size Forecast by Country
 - 11.2.3 Asia Pacific Space Valves Market Size Forecast by Region
 - 11.2.4 South America Space Valves Market Size Forecast by Country
 - 11.2.5 Middle East and Africa Forecasted Sales of Space Valves by Country

12 FORECAST MARKET BY TYPE AND BY APPLICATION (2026-2035)

12.1 Global Space Valves Market Forecast by Type (2026-2035)

12.1.1 Global Forecasted Sales of Space Valves by Type (2026-2035)

12.1.2 Global Space Valves Market Size Forecast by Type (2026-2035)

12.1.3 Global Forecasted Price of Space Valves by Type (2026-2035)

12.2 Global Space Valves Market Forecast by Application (2026-2035)

12.2.1 Global Space Valves Sales (K Units) Forecast by Application

12.2.2 Global Space Valves Market Size (M USD) Forecast by Application (2026-2035)

13 CONCLUSION AND KEY FINDINGS
