Report Overview

SPH composite elastic fiber is a polyester composite yarn, which is made by combining two different elastic polyester fibers. This new type of elastic fiber uses twin-screw two-component technology to give the fabric long-lasting elasticity. The elasticity of SPH fabric is not easily damaged, and it is easy to curl and dye. SPH fiber can be used in a variety of clothing fabrics such as summer shirts, summer skirt materials, spring and autumn trousers and skirt materials. Its stretch resilience is close to that of spandex, but its elasticity and durability are better than spandex, and it has good dyeability and color fastness.
