The quality of coaching athletes and coaching teams is better with the introduction of some automated process. The availability of coaching modules provides coaches with many distinct possibilities for strategic maneuvering. The ability of athlete health and muscle metrics to trainers increases options for increasing athlete effectiveness. The availability of annotated video, instantly available on the smart phone makes athletes and teams train better. Better sports at every level is made possible by the coaching platforms. Platforms offer information integration and distribution which ever is the appropriate response. Vendors are able to stimulate better conditioning and better team play. Platforms provide accelerated annotated video distribution to the right people efficiently.

In sports and fitness technology, it is not about what data can be shown, it is how meaningful the data is in terms of improving athletic performance or managing overall personal fitness. Sports coaching platforms have become a way to bring big data to the coach and help him craft on-field strategy, tuned to actionable information. Annotated video is the fundamental technology set to revolutionize sport. As it is formatted in a manner that is appropriate for viewing on a smart phone, it becomes a valuable tool for improving sporting performance. Platforms and monitoring devices are being used by athletes and coaches to make team members better players. Fitness devices are being used to increase the levels and qualities of exercise. Vendors have been forced to realize that people need interpretation of data, they need to know the meaning of data collected by the team, letting the coach communicate a coherent strategy.
