Report Overview:

Sticky Notes is a small piece of paper with a re-adherable strip of glue on its back, made for temporarily attaching notes to documents and Others surfaces. A unique low-tack pressure-sensitive adhesive allows the notes to be easily attached, removed and even re-posted elsewhere without leaving residue. Originally small yellow squares, Post-it Notes and related products are now available in an array of colors, shapes and sizes. Although 3M's patent ran out in 1997, 'Post-It' and the original notes' distinctive yellow color remain registered company trademarks, with terms such as 'repositionable notes' used for similar offerings manufactured by competitors.
