## Abstracts

The growing demand for stock videos captured by drones is trending in the market. Stock videos captured through drones are extensively used in filmmaking. Earlier, videos shot using helicopters, airplanes, hot air balloons, and others were expensive. However, shooting videos on drones cost less and are also of high quality. As a result, the demand for stock videos captured on drones is increasing. It will contribute to the growth of the market during the forecast period. The growth momentum of the stock video market will accelerate over the forecast period and will register close to 7% CAGR.

The global Stock Video market size was estimated at USD 902.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 7.60% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Stock Video market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Stock Video market. It offers detailed profiles of major players, including their market shares,

performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Stock Video market.
