Abstracts

Sugar Free Citrus Soda refers to a category of carbonated soft drinks characterized by a citrus flavor profile typically derived from natural or artificial lemon, lime, orange, grapefruit, or a blend thereof while containing negligible or zero sugar, relying instead on non-nutritive sweeteners such as aspartame, sucralose, stevia, or acesulfame potassium to deliver sweetness without the caloric content of traditional sodas; these beverages are distinct from diet colas and appeal to health-conscious consumers, diabetics, and those managing caloric intake, while still offering the refreshing, tangy taste associated with citrus-flavored carbonated drinks.
