TCM Pulse Simulation Training System is a specialized educational tool designed to replicate the pulse diagnosis methods used in Traditional Chinese Medicine (TCM). It simulates the subtle variations in pulse characteristics?such as depth, speed, strength, and rhythm?across the three pulse positions (cun, guan, and chi) on both wrists, which are essential for diagnosing internal conditions in TCM. By providing a realistic and interactive training environment, this system helps students and practitioners improve their pulse diagnosis skills, understand the nuances of different pulse types, and enhance their overall clinical proficiency in TCM without relying solely on live patient practice.
