Abstracts

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Tocopheryl Succinate competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. In 2024, the global production of tocopherol succinate will reach 11k tons, with an average selling price of US\$35k per ton.
