Report Overview

The towed boarding stair, also known as a towable passenger boarding bridge or TPBB, is a mobile piece of equipment that enables passengers to board/deboard an aircraft parked at a remote stand (i.e. not connected to a gate). The TPBB is towed by a specialized vehicle to the vicinity of the aircraft and connected to it via a telescopic tunnel-like structure that provides a safe and secure means of passage for passengers. The TPBB is ideal for airports that lack sufficient gate facilities or for temporary remote operations.
