Report Overview

An aerial work platform (AWP) is also commonly known as a man lift or lift. AWP refers to any machine that is used by people or equipment as access in hard-to-reach areas, which are too high to reach safely using other methods.

The increasing use of rental equipment is one of the primary factors fuelling market's growth. With the increasing cost, there is a rising preference towards renting equipment. The AWP equipment industry is capital-intensive and there is a need for huge funds for the acquisition and maintenance and operating equipment.
