Abstracts

Used Mobile Phone E-commerce refers to the business model of buying, selling, or trading pre-owned, refurbished, or second-hand mobile devices (smartphones and tablets) exclusively through online platforms, websites, or mobile applications. As a vertical segment of the broader e-commerce (and often m-commerce) market, this process typically involves digital transactions between Consumers-to-Consumer (C2C), Business-to-Consumer (B2C), or Consumer-to-Business-to-Consumer (C2B2C) models. Key services provided by these platforms include standardized quality grading and inspection, data wiping/sanitization, secure payment processing, and providing after-sale warranties or guarantees. The core function is to facilitate the efficient, trustworthy, and scalable circulation of used devices, significantly contributing to the circular economy by extending product lifecycles and offering cost-effective alternatives to new purchases.

The global Used Mobile Phone E-commerce market size was estimated at USD 12900.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.40% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Used Mobile Phone E-commerce market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current
