This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Valerian Root Powder competitive dynamics, regional economic interdependencies, and supply chain reconfigurations. Valerian Root Powder is a natural herbal powder made from finely ground dried roots of *Valeriana officinalis*, renowned in European traditional medicine for promoting sleep and reducing anxiety. Its active compounds?valerenic acid, valeranal, and essential oils (e.g., bornyl acetate)?modulate GABA receptors to induce calming effects. The light brown to tan powder has an earthy aroma and mild bitterness, typically consumed as capsules, tablets, or tea to address insomnia, nervous tension, and stress-related digestive issues. Modern research confirms its ability to reduce sleep latency and improve quality with lower dependency risk than synthetic sedatives.
