Abstracts

Van Rental is a widely available vehicle leasing service that specializes in providing various types of vans—box-shaped motor vehicles used for transporting goods or groups of people—for temporary use. The service encompasses a range of vehicle styles, including cargo vans (panel vans) designed primarily for transporting freight, passenger vans (minivans or multi-passenger vans) used for group travel or shuttling services, and sometimes specialized vans like refrigerated or high-roof models. Van rental services cater to diverse customer needs, such as individuals needing a larger capacity vehicle for apartment moving or hauling materials, businesses requiring temporary fleet expansion for peak delivery seasons, or groups needing cost-effective transport for events and trips.

The global Van Rental market size was estimated at USD 45000.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 5.50% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Van Rental market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.
