Abstracts

Vehicle Consignment Services is a consignment sales model in which a vehicle owner (the consignor) entrusts their vehicle to a professional car dealer, used car dealership, or other consignment platform (the consignee). The consignee, in accordance with a signed consignment agreement, displays, promotes, and facilitates the vehicle's transaction within an agreed-upon period. In vehicle consignment services, the vehicle remains the property of the owner until it is sold. The consignee is responsible for all sales-related matters, including vehicle evaluation, pricing, marketing, display, and negotiation with the buyer. Upon successful transaction, the consignee receives a commission or a fixed service fee from the vehicle's sales price, with the remaining balance paid to the owner.

The global Vehicle Consignment Services market size was estimated at USD 727.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 6.80% during the forecast period.
