Vichy shower equipment refers to specialized hydrotherapy systems designed to deliver multiple streams of water from above while the user lies on a wet table, typically used in spas, wellness centers, and therapeutic settings for massages, relaxation, and skin treatments. This equipment generally features adjustable water pressure, temperature controls, and strategically placed showerheads to provide an even, cascading flow, and it is often constructed from materials like stainless steel or brass for durability and corrosion resistance in humid environments. The market for Vichy showers is closely tied to the broader wellness and professional spa industry, with demand driven by trends in luxury self-care, rehabilitation services, and the growing integration of hydrotherapy in medical and aesthetic practices.
