Abstracts

Washable sticky mats are an innovative floor cleaning solution designed for places that require frequent cleaning and cost-effectiveness. Made of special sticky materials, these mats can effectively absorb and retain dust, dirt, grease and other pollutants on the soles of shoes, keeping the floor clean and safe. Unlike traditional sticky mats, the biggest feature of washable sticky mats is their repeatable cleaning properties. Users can remove accumulated pollutants through a simple water or solvent cleaning process to restore the stickiness of the mat, thereby greatly extending the service life and reducing costs. In addition, these mats usually have a non-slip design to ensure walking safety, while their soft and durable material can adapt to various floor types, providing good fit and comfort. Washable sticky mats are widely used in homes, offices, factories, warehouses and many other occasions. They are ideal tools for maintaining a clean environment and improving work efficiency.
