Abstracts

Waterborne epoxy coatings are coatings that use water as a solvent or dispersion medium. Waterborne epoxy coatings include water-soluble epoxy coatings and water emulsified coatings. Water-soluble coatings are often called electrophoretic coatings, that is, the resin is dissolved in water to form a uniform colloidal solution. If the resin ions are charged, the colloidal particles can be deposited on the surface of the workpiece by electrophoresis under the action of direct current. The waterborne epoxy coating market is relatively fragmented. At present, major global manufacturers include AkzoNobel, Sherwin-Williams, Nippon Paint, PPG Industries, 3Treesgroup, Tikkurila, Caparol, Carpoly, Mapei, Baucoatings, Hychem, Jotun, Sika, Benjamin Moore, Sanxia Paint, Chenyang, Lanling, Boysen Paints, etc., the top 10 manufacturers account for about 45%. It is expected that industry competition will become more intense in the next few years, especially in the Chinese market. China is the largest consumer of water-based epoxy coatings, accounting for approximately 37% of the total market share. Besides, North America and Europe have good market prospects, the two together account for more than 40% of the total market share. From the perspective of product type and technology, waterborne epoxy coating mainly includes water-based epoxy floor paint and water-based epoxy anticorrosive paint. At present, water-based epoxy floor paint is the most important application field, accounting for about 70% of the market share; water-based epoxy anticorrosive paint has a wide range of applications and rapid development, but at the same time the price is relatively expensive. Due to the excellent performance and characteristics of waterborne epoxy coating, it is widely used in various industrial and commercial floors, construction machinery, etc.

The global Waterborne Epoxy Coating market size was estimated at USD 1877.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 9.30% during the forecast period.
