Report Overview

A hair trimmer is designed for styling shorter hair, including facial and body hair. They feature smaller blades than clippers, allowing them to cut closer to the skin. They can also double up as a shaver, ideal for sensitive skin. A shaver is an electric device that is used to achieve a clean-shaven look. Shavers fall into two categories: foil and rotary. Use a foil shaver when looking for a close-to-the-skin shave. Rotary shavers are better for longer and thicker facial hairs.
