Abstracts

Intangible assets are those assets in a company's balance sheet that have monetary or business value hidden in them but are not present in the physical form. Intangible assets help companies by performing operations in a unique manner thereby giving them a competitive edge. For example, intellectual property like patents, trademarks and copyrights are types of intangible assets. All businesses can gain access to intangibles by creating intangibles or acquiring intangibles from other businesses. The intangible value of a business can also be hidden in the brand value of a corporation. Different businesses exhibit different Unique Selling Points that can be considered part of the intangible value of a business.

The global Intangible Assets Valuation Service market size was estimated at USD 1250.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 8.50% during the forecast period.
