Report Overview

Jojoba Micro Beads is a skincare product that utilizes tiny, spherical particles made from jojoba oil, a natural wax ester derived from the seeds of the jojoba plant. These beads are designed to gently exfoliate the skin, removing dead skin cells and impurities without causing irritation. The product is particularly beneficial for individuals with sensitive skin, as jojoba oil is known for its moisturizing and soothing properties. The micro beads are often incorporated into cleansers, scrubs, or masks, providing a mild yet effective exfoliation experience that can help improve skin texture, reduce the appearance of pores, and promote a more radiant complexion.
