Report Overview

Laxative Prune Juice is a dietary supplement specifically formulated to promote bowel regularity and alleviate constipation. It is made from concentrated prunes, which are known for their high fiber content and natural laxative properties. This product typically contains a blend of prune juice, water, and sometimes added sweeteners or flavorings. The high concentration of dietary fiber in prune juice helps to increase the bulk and soften the stool, making it easier to pass. It also stimulates the contractions of the intestinal muscles, which can speed up the passage of food through the digestive system. Laxative Prune Juice is often recommended as a natural and gentle remedy for occasional constipation, especially for the elderly or those with a low-fiber diet.
