Report Overview

The lifting pet grooming table is a specialized piece of equipment designed to assist groomers in efficiently and safely handling pets during grooming sessions. These tables typically feature an adjustable height mechanism, allowing groomers to raise or lower the surface to a comfortable working level, reducing strain on their backs and ensuring better control over the animal. Most models include non-slip surfaces, restraining loops, or tethers to secure pets in place, as well as drainage systems for easy cleaning. The lifting mechanism may be hydraulic, electric, or manual, catering to different budget and usability preferences. These tables are widely used by professional groomers, veterinary clinics, and pet care facilities, with variations available for different animal sizes, from small dogs and cats to larger breeds. Durability, stability, and ease of cleaning are key considerations in their design, as they must withstand frequent use and exposure to water, fur, and cleaning chemicals.
