## Abstracts

Noise Isolation Cabin is a cabin that can soundproof and reduce noise. The soundproof cabin is equipped with multiple floor-to-ceiling soundproof glass curtain walls to maintain a certain degree of transparency and light transmittance, allowing people to be free and unrestrained without oppression. The noise Isolation cabin can also have a built-in ventilation system, so that users can still feel fresh like a spring breeze in a relatively closed space environment, and always maintain air convection inside and outside. The soundproof cabin has a built-in adjustable lighting system to maintain a suitable lighting level so that the user's eyes will not feel tired. In such an environment, a good environment in the office or studio can be guaranteed, and work efficiency or the accuracy and reliability of work projects can be improved.
