### Report Overview

Over-the-counter nighttime mouthguards are prefabricated dental appliances designed for the general public to purchase without a prescription. These mouthguards are primarily intended for use during sleep to protect teeth from damage caused by teeth grinding (bruxism) or clenching. They are typically made from soft, flexible materials like thermoplastic or silicone, which can be molded to fit the individual's teeth for a comfortable fit. Over-the-counter nighttime mouthguards are an affordable and convenient alternative to custom-made mouthguards provided by dentists, offering a basic level of protection and comfort for those who experience nighttime teeth grinding or clenching.

This report provides a deep insight into the global Over-the-counter Nighttime Mouthguards market covering all its essential aspects. This ranges from a macro overview of the market to micro details of the market size, competitive landscape, development trend, niche market, key market drivers and challenges, SWOT analysis, value chain analysis, etc.
