### Report Overview

A Pet Automatic Leash is a technologically advanced pet accessory designed to provide convenience and control for pet owners while walking their dogs. This product features an automatic mechanism that allows the leash to extend and retract based on the distance between the pet and the owner, ensuring a safe and comfortable walking experience. The leash is typically equipped with a handle that houses a button or trigger, which, when pressed, causes the leash to retract, bringing the pet closer. Conversely, when the button is released, the leash extends, allowing the pet to roam further.
