### Report Overview

Prescription Running Sunglasses are a specialized type of eyewear designed to cater to individuals who require corrective lenses for their vision while engaging in outdoor activities, particularly running. These sunglasses combine the functionality of prescription lenses with the protective features of sunglasses, ensuring optimal visual clarity and comfort during physical activities. The product typically features lightweight, durable frames that can withstand the rigors of running, while the lenses are designed to provide 100% UV protection and may include polarized or photochromic options to reduce glare and enhance visual acuity in varying light conditions. The prescription lenses are custom-made to suit the wearer's specific vision correction needs, allowing for a comfortable and secure fit that stays in place during high-intensity activities.
