Report Overview

A Price Tagging Gun, also known as a tagging gun or pricing gun, is a specialized tool used primarily in retail environments for affixing price tags to products. This device operates by puncturing a small hole in the price tag and the product packaging, allowing for a secure and tamper-evident attachment. The gun typically uses a strip of tags pre-printed with barcodes, SKU numbers, and pricing information, which can be customized according to the retailer's inventory system.
