### Report Overview

Selenium Sulfide Shampoo is a medicated hair care product specifically formulated to treat various scalp conditions, such as dandruff, seborrheic dermatitis, and psoriasis. It contains two active ingredients: selenium sulfide and sulfur, which work synergistically to combat fungal and yeast infections, reduce inflammation, and control excessive oil production on the scalp. The shampoo's antifungal and anti-inflammatory properties help alleviate itching, flaking, and scaling associated with these conditions. Additionally, selenium sulfide shampoo can be used to manage scalp conditions caused by *Malassezia*, a common yeast-like fungus. It is typically used as a leave-on treatment, allowing the shampoo to remain on the scalp for a specified period before rinsing, to maximize its therapeutic effects.
