## Abstracts

Sunscreen cream is a lotion or cream like cosmetic product that absorbs or reflects some of the sun's ultraviolet (UV) radiation and thus helps protect against sunburn. The active ingredients work by absorbing, reflecting, or scattering some or all of the sun's rays. Depending on the mode of action, sunscreens can be classified into physical sunscreens (i.e., zinc oxide and titanium dioxide, which stay on the surface of the skin and mainly deflect the UV light) and chemical sunscreens (i.e., UV organic filters, which absorb the UV light). SPF measures sunscreen protection from UVB rays, the kind that cause sunburn and contribute to skin cancer. For example, "SPF 15" means that 1/15 of the burning radiation reaches the skin through the recommended thickness of sunscreen. Other rating systems indicate the degree of protection from non-burning UVA radiation. Europe, North America and China are the top regions regard of consumption share, with 24.9%, 22.6% and 20.4% respectively in 2019. Estee Lauder, Proctor & Gamble, L'Oreal and Johnson & Johnson, Shiseido are dominating the Global market, other leading players include Unilever, Edgewell Personal Care, etc.

The global Sunscreen Cream market size was estimated at USD 7106.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 5.20% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Sunscreen Cream market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the

industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global Sunscreen Cream market. It offers detailed profiles of major players, including their market shares, performance metrics, product portfolios, and operational status. This enables stakeholders to identify leading competitors and gain a nuanced understanding of market rivalry and structure.

In summary, this report serves as an essential resource for industry participants, investors, researchers, consultants, and business strategists, as well as anyone planning to enter or expand their presence in the Sunscreen Cream market.

### **Global Sunscreen Cream Market: Market Segmentation Analysis**

This research report provides a detailed segmentation of the market by region (country), key manufacturers, product type, and application. Market segmentation divides the overall market into distinct subsets based on factors such as product categories, end-user industries, geographic locations, and other relevant criteria.

A clear understanding of these market segments enables decision-makers to tailor their product development, sales, and marketing strategies more effectively to meet the unique needs of each segment. Leveraging market segmentation insights can significantly enhance targeted approaches, optimize resource allocation, and accelerate product innovation cycles by aligning offerings with the specific demands of diverse customer groups.
