Report Overview

A two-piece dive suit is a scuba diving apparel consisting of two separate garments: a top (often a wetsuit or drysuit) and bottoms (such as shorts or a second long john style garment). This configuration allows for more customization and comfort, as divers can choose different materials or thicknesses for the top and bottom based on the specific needs of their dive, such as water temperature, dive duration, and activity type (e.g., free diving versus technical diving). Two-piece suits can be made from neoprene, latex, or other flexible materials and may include features like seals at the wrists and ankles to prevent water entry.
