BMI View: Our Europe Country Risk team continues to forecast strong and well-balanced economic expansion over the coming quarters. Real private consumption is expected to stay at above a rate of growth of 2% over the 2020 forecast period - this will provide a solid outlook for food and drink companies operating in this reasonably mature Central European economy.

Key Trends & Industry Developments

Food sales in 2016 are forecast to grow by 3.8% in local currency terms.

Convenience retailers and those targeting premium fresh produce should fare well, with the economic outlook looking solid.
