

# South Korea Mining Report Q1 2011

<https://marketpublishers.com/r/S038A1F2F07EN.html>

Date: January 2011

Pages: 49

Price: US\$ 1,295.00 (Single User License)

ID: S038A1F2F07EN

## Abstracts

**Includes 3 FREE quarterly updates**

South Korea has small reserves of antimony, gold, copper, iron ore, lead, molybdenum, silver, tin, tungsten and zinc. The country's domestic coal reserves have been exhausted, although it holds reasonable quantities of non-metallic minerals such as kaolin, limestone, feldspar, quartzite and mica. South Korea is one of the world's leading steel producers and a leading producer of cadmium and slab zinc. Due to the country's limited mineral reserves, supply has been unable to meet demand from the country's industrial sector. As such, South Korea is an overall net importer of mineral commodities and one of the region's main importers of coal, natural gas, nickel oxide sinter and ores and concentrates of copper, iron, lead and zinc. The current focus is on overseas exploration as the country seeks to secure supplies of raw materials to power its industrial base.

**Regulatory Environment** South Korean law mandates that all land and resources come under the purview of the state, with the government determining the issuance of mining and processing licences. Given the country's small holdings of natural resources, activities are mostly focused on the processing of imported raw materials.

Most of South Korea's large coal mining, natural gas, petrochemical and petroleum refining companies are state-owned and come under the supervision of the Ministry of Commerce, Industry and Energy (MCIE). Other small, mid-sized mining, quarrying and metal processing companies are privately-owned and operated.

**Key Players** South Korea's mining industry is dominated by the country's largest and the world's third largest steelmaker Pohang Iron and Steel Company (POSCO), and state-owned entities Korea Zinc and Korea Resources (Kores). Other major players in the country's key steel sector include Hyundai Steel and Dongkuk Steel. Korea Zinc is

South Korea's leading lead and zinc producer, covering 46% and 68% of domestic lead and zinc production. Poongsan Corp is South Korea's leading nonferrous metals producer, while LS-Nikko Copper is the country's main copper producer.

## Contents

- Executive Summary
- SWOT Analysis
  - South Korea Political SWOT
  - South Korea Economic SWOT
  - South Korea Business Environment SWOT
- Global Mining Outlook
- Monthly Roundup: Continued Exploration Due To Strong Earnings
  - Table: Expansion Plans
  - Table: Tax Developments
  - Table: Mining Sector Developments
- Industry Trends And Development
  - Table: South Korea Mining Industry, 2005-2015
- Industry Trend Analysis
  - Steel: Upward Production Revision In 2010, Strong Growth Ahead
    - Table: South Korea Crude Steel, 2004-2014
  - Copper: Stagnant Growth Prompts Efforts To Secure Overseas Supplies
    - Table: South Korea Refined Copper, 2005-2014
  - Nickel: Fall In 2010 Production, Demand Will Continue To Outstrip Supply
  - Lead & Zinc Production To Grow Steadily
    - Table: Lead & Zinc Production, 2008-2015
  - Uranium: Production Set To Grow Over Long Term
- Regulatory Development
- Political Outlook
  - Domestic Politics
  - Long-Term Political Outlook
  - Inter-Korean Relations
- Competitive Landscape
- Company Profiles
  - Pohang Iron And Steel Company (POSCO)
    - Table: Key Company Data (Five-Year Summary)
- Korea Resources
  - Korea Zinc
  - Woulfe Mining Corp
- Global Assumptions
  - Table: Global Assumptions
  - Table: Global & Regional Real Gdp Growth % Chg Y-O-Y
  - Table: Developed States, Real GDP Growth Forecast

Table: Emerging Markets Aggregate Growth

Table: Consensus Forecasts

Business Environment Ratings Methodology

Table: Mining Business Environment Indicators

Table: Weighting Of Components
