Abstracts

Background:

Animal husbandry has been developed from being a household sideline production to becoming the pillar industry in China's agriculture industry. On one hand, affected by the fast-growing chickens and H7N9 influenza events in 2013, most of these companies did not perform very well. Prices of animal husbandry products were very unstable. On the other hand, owing to the industrialization, the increasing demand for animal products and the increasing yield of animal husbandry year by year, the revenue of animal husbandry kept growing and the whole industry showed some characteristics.

Purpose of report:

To clearly describe China's animal husbandry, CCM has collected lots of information in various ways. In this report, development situation of animal husbandry listed companies has been described in detail, their revenue and business structure also have been analyzed.
