Abstracts

Background:

Animal husbandry industry in China was turbulent in 2013. Lots of hot spots happened, such as H7N9 avian influenza event and fast- grown chicken event. These hot spots brought great influences on the market and industry development, As a result, the government and enterprises have taken relative measures to deal with it.

Purpose of report: To clearly describe the hot spots in China's animal husbandry industry, CCM has collected lots of relevant information in various ways. In this report, these hot spots happened in four industries (like meat and poultry industry) have been described in detail, the causes and effects also have been analyzed.

What to report: In this report, the hot spots from these four industries in animal husbandry industry have been analyzed exhaustively from the following two aspects:

Event review;

Impact of event.

Forecast: These hot spots will promote the development of animal husbandry industry to be more healthy and standardized and the animal husbandry industry will develop smoothly and stably.
