Abstracts

Description

Atrazine is a triazine herbicide that is widely used in the world to control broadleaf weeds in the production of corn and sorghum. As one of the largest producers of atrazine in the world in terms of capacity, China has seen increasing capacity of atrazine in recent years. However, China is facing great challenges at the same time. For example, environmental pollution and shortage of raw materials have been important factors restricting atrazine industry's sustainable and stable development in China.

Moreover, China has exported over 70% of its total atrazine output to more than 20 countries in recent years. Besides, China's atrazine technical is mainly exported to Middle East and America. Meanwhile, atrazine formulations are majorly exported to Middle East, Southeast Asia and South America.

Presenting an in-depth analysis into China's current atrazine market, this report attaches importance to the following parts:

Supply summary of atrazine technical and formulations (capacity, output and key manufacturers), 2007-2012

Ex-work price of atrazine technical and formulations, 2011-June 2012

Export situation of atrazine technical and formulations (volume, price, and destination), 2011

Brief comments

Atrazine survey in China is CCM International's first edition report on Chinese atrazine industry, finished in August 2012. This intelligent report attaches importance to the following parts:

Supply summary of atrazine technical and formulations (capacity, output and key manufacturers), 2007-2012

Ex-work-price of atrazine technical and formulations, 2011-June 2012

Export situation of atrazine technical and formulations (volume, price, and destination), 2011

What are the aims of this report?

To provide readers with comprehensive & in-depth understanding into Chinese atrazine industry;

To identify the major suppliers of atrazine in China;

To survey current production situation of atrazine technical and formulations;

To analyze the export situation of atrazine technical and formulations;
