

# China Fluoride Materials Monthly Report 202308

<https://marketpublishers.com/r/CF47140B4FDEN.html>

Date: August 2023

Pages: 29

Price: US\$ 3,564.00 (Single User License)

ID: CF47140B4FDEN

## Abstracts

Welcome to the Aug. Issue of China Fluoride Materials Monthly Report.

This newsletter will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire fluoride materials industry chain, from raw materials to end consumption. It includes breaking news from China and abroad, the latest market data (price, import & export, production, consumption, operating rates, etc.), in-depth analysis of market trends, Chinese government policy, performance of Chinese producers, M&A, new technology, and expert commentary from industry insiders.

Here is the Editor's Note for you to know about the Aug. issue specifically:

In Aug. 2023, prices of major fluorochemical products maintained stability. Specifically, prices of fluorite and AHF scarcely changed as downstream enterprises mainly consumed inventories. R22 prices went up as downstream demand increased and production costs gave certain support to the prices. AIF3 prices also kept steady as downstream enterprises resumed production successively and the contradiction between supply and demand eased gradually.

Important market dynamics in Aug. 2023

On 8 Aug., 2023, the environmental report of the fluorine-based new material integration project of Guang'an Chengxin Chemical Co., Ltd. was publicised, showing that the company planned to build capacity of 60,000 t/a LiPF<sub>6</sub>.

On 7 Aug., 2023, the website of Shaowu Jintang Industrial Park publicised the information of the 3,150 t/a hexafluorophosphate, 2,500 t/a fluorinated coolant, 350 t/a fluorine-enriched electrolyte additive, and 120 t/a sodium fluoride project of Shaowu Yongtai New Material Co., Ltd.

On 31 July, 2023, the environmental information of the 30,000 t/a AHF and 20,000 t/a electronic grade hydrofluoric acid project of Yunnan Wengfu Xiangfeng Fluorosilicone New Material Co., Ltd. was disclosed for the second time.

On 29 July, 2023, the environmental information of the high-quality fluorine-enriched inorganic salt project (phase I) of Xinjiang Kexin Chemical New Material Co., Ltd. was disclosed for the second time, presenting that the company intended to establish production lines of 120,000 t/a ultrapure AHF and 150,000 t/a ultrapure anhydrous  $\text{AlF}_3$ .

China Fluoride Materials Monthly Report is a monthly published newsletter, which can be downloaded in PDF format. The subscription mode for this newsletter is yearly and the subscriber will receive 12 issues per year.

## Contents

Headline

Editor's Note

Market Dynamics

Market confidence in refrigerants gradually increases

Xilingol League vigorously develops modern fluorine new material industry

Company Dynamics

Chengxin Chemical enters fluorochemical sector

Wengfu Xiangfeng's AHF and electronic grade hydrofluoric acid project

Kexin Chemical's fluorine-enriched inorganic salt project (phase I)

Net profits several fluorochemical enterprises are expected to drop YoY in H1 2023

Tinci Materials' LiPF<sub>6</sub> equipment starts trial production

Dongyue Wenhe's 10,000 t/a FEC project

Shaowu Yongtai to build 2,500 t/a fluorinated coolant project

Fluorine-enriched high-end electronic material project of Shandong Qiifu

Urumqi Fuduoduo's green and high-end fine fluorochemical project

Fuxin Tianli's 4,000 t/a fluorine-enriched intermediate fine chemical project

Jinebo Fluorochemical's inorganic fluorochemical project is put into production

Political Factors

Fujian's implementation plans for carbon peaking in key sectors

EU to ban PFHxS

Technology

Zhejiang Jusheng's TFE downstream high-end fine chemical renovation project

Market Data Analysis

Fluorite prices scarcely change in Aug. 2023

AHF prices maintain stability in Aug. 2023

R22 prices increase and then become stabilised in Aug. 2023

AIF3 prices keep stable at low level in Aug. 2023

Import and Export

Import and export of major fluorochemicals in China in June 2023

Price Update

Ex-works prices of major fluorochemicals in China in Aug. 2023

## I would like to order

Product name: China Fluoride Materials Monthly Report 202308

Product link: <https://marketpublishers.com/r/CF47140B4FDEN.html>

Price: US\$ 3,564.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/CF47140B4FDEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
