Editor Notes

Welcome to the August issue of Dairy Products China News Alerts.

As we all know, China dairy industry is promising, and the industry has developed rapidly in recent two years, though affected by so many negative food incidents and the gloomy economy: in Q2 2012 - the off season for dairy consumption in China, the industry has realized sales revenue and total profit of USD10.09 billion (RMB64.37 billion) and USD0.76 billion (RMB4.86 billion), up 16.6% and 43.4% over Q2 2011.

The rapid development of China's dairy industry also provides a great opportunity for the world, shown by China's increasing import volume and value of dairy products in the brief news; apart from the import information, the brief news will also provide many other information and figures covering the whole industry, from upstream to downstream.

These information and figures can give you a general view of China's dairy industry, thus to help you make decisions. For example, you can learn that many domestic and multinational dairy processors are seeking cooperation with each other, aiming to expand in China better. Undoubtedly, the information is just outlined in the brief news, and if you want to know more details and in-depth analysis, you can refer to the Dairy Products China News.
