Abstracts

Description

Abamectin is a biological pesticide. It's used widely in rice, corn, vegetable, fruit trees, etc. In recent years, domestic and overseas needs are growing rapidly now the abamectin technical capacity has grown to over 4,200t/a, which is much more than its output in 2011.

Abamectin technical producers are facing the challenge of industry reshuffle, pests' resistance to abamectin is increasing and the competition from foreign products is more and more intense, who will win at the end?

The selling of abamectin ointment has been investigated by GAQSIQ since May 2012, will this event impact on abamectin industry?

Domestic market is under pressure, but export volume is increasing. How about the demand of abamectin in recently years?

Presenting an in-depth analysis on China's current abamectin market, this report attaches great importance to the following aspects:

Supply summary of abamectin technical (capacity, output and key manufacturers), 2008-2012

Ex-works price of abamectin technical and formulations, Jan.2010-July 2012

Export situation of abamectin technical and formulations (volume, destination), 2008-2011

Demand of abamectin In China

Registrations of abamectin in China, 2012

Analysis on competing products of abamectin

Analysis on investigation of abamectin ointment
