Abstracts

In recent three years, although clomazone meets the market demand, it hasn't developed well in China. Due to the severe pollution in production and the increased production cost, some producers have abandoned the production plan of clomazone. Besides, in domestic market, clomazone products are primarily sold to Northeast China, about 60% of clomazone produced in China is exported to overseas, and the overseas market mainly focuses on Europe, South America, the North American.

The ex-works price of 95% clomazone technical in China has decreased slightly in general in last two years, which is related to the market demand of clomazone.

This clomazone report mainly focuses on the following aspects:

Production situation in China, 2010-Oct.2012
