Abstracts

Description

CCM International's ethylene oxide report mainly focuses on the following aspects:

Capacity and output of ethylene oxide in China

Technology sources of ethylene oxide in China

Output structure of ethylene oxide in China

Geographical distribution of ethylene oxide in China

Producers of ethylene oxide in China

Ex-works price of ethylene oxide in China

Forecast of ethylene oxide in China

Brief comments

Production Situation of Ethylene oxide in China is CCM International's first edition report on Chinese ethylene oxide industry, finished in Aug. 2012. This intelligent report attaches importance to the following parts: Production summary of ethylene oxide (capacity, output, technology sources, output structure, geographical distribution and producers)

What are the aims of this report?

To provide readers with comprehensive & in-depth understanding of Chinese ethylene oxide industry;

To identify the major suppliers of ethylene oxide in China;

To survey current production situation of ethylene oxide;

To discuss and analyze the price fluctuation and find out reasons for such fluctuations

What can readers benefit from the report?

Obtain the latest info of ethylene oxide, such as its production status, price and so on;

Understand the actual production situation, pricing, trade and then to grasp commercial opportunities.
