Abstracts

The Executive Summary of Development of Bio-pesticide Industry in China is from Kcomber's report Development of Bio-pesticide Industry in China, which was finished on 27 April, 2016.

China's bio-pesticide industry is developing with a promising prospect, with abundant resources and quickly developing technology. China currently produces 140 kinds of bio-pesticides, and over 15 kinds have actual production capacity, which are usually patent-expired products.

This executive summary mainly states the introduction of bio-pesticides, such as bacillus thuringiensis, abamectin, etc. And it also introduces their consumption and export situation, as well as gives forecasts to their supply and demand in the next few years (2016-2020).

The Executive Summary briefs you the market situation of bio-pesticide industry in China, helping you adjust your strategy more clearly.
