Abstracts

Key findings (Word) + Trade analysis (Excel)

Diethyl thiophosphoryl chloride (DETC) is an important intermediate in production of many organophosphorus pesticides, such as phoxim, parathion, chlorpyrifos, triazophos, diazinon, etc. DETC production has over 30 years history in China.

This report provides basic understanding of China's DETC industry, covering DETC price trend over the past several years, production situation of active, idle, and stopped producers as well as DETC export situation in 2008-Apr. 2009, which enables you to keep track of the dynamics of Chinese DETC industry, especially supply and export situation, and grasp potential business opportunities.
