Abstracts

The Executive Summary of Forecast of Integrated Phosphorus Industry in China is from CCM's report Forecast of Integrated Phosphorus Industry in China, which is finished in April in 2015.

Along with the public's increasing awareness of food safety, healthy dietary, environmental protection and green economy, the phosphorus chemical industry in China and the world at large has been attracting more and more attention.

The production of phosphate rock in China has seen huge changes in recent years, and the proved reserves of phosphate rock are about 18.78 billion tonnes as of 2014. In detail, there are different changes in phosphate rock's production technology, governmental policies, supply and demand, producers and their production, as well as export. As for phosphate rock's consumption, the situation in the domestic and overseas markets has also witnessed changes.

The executive summary of Forecast of Integrated Phosphorus Industry in China showed you a brief of the whole industry chain of phosphate rock, and then gives you a general outlook of the industry.
