Abstracts

Welcome to the June Issue of Fungicides China News.

This newsletter will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire fungicide industry chain, from raw materials to end consumption. It includes breaking news from China and abroad, the latest market data (price, import & export, production, consumption, operating rates, etc.), in-depth analysis of market trends, and expert commentary from industry insiders.

Here is the Editor's Note for you to know about the June issue specifically:

In terms of market dynamics, on June 9, 2021, Zhejiang Wynca announced that it had signed a strategic cooperation agreement with Huapont and Nutrichem and agreed to establish strategic partnerships in agrochemical and other aspects with Nutrichem as platform. In end-June, the prices of most fungicides in China remained stable, with some of them fluctuated relatively significantly.

In terms of company dynamics, Gansu Qipeng plans to launch a 20,130 t/a high-efficiency, low-toxicity, low-residue and environmental-friendly pesticide project. Hebei Guanlong intends to build a large-scale agricultural fungicide production base in Inner Mongolia and form production capacities including 5,000 t/a captan TC, 1,000 t/a dimethomorph TC, 1,000 t/a carbendazim TC, 1,000 t/a thiophanate-methyl TC and 600 t/a benomyl TC. Shandong Xinlong intends to form the production capacities of 600 t/a chlorfenapyr and 200 t/a flusilazole. On June 4, the Jianchang Branch of Huludao City Ecological and Environment Bureau issued the environmental impact assessment report of Huludao Lingyun's 1,000 t/a thiamethoxam, 900 t/a dinotefuran and 300 t/a pyraclostrobin project.

In terms of registration, at the end of May, the ICAMA announced the fifth list of

pesticide products to be approved for registration in 2021. 34 fungicides are on the list, among which 3 are antibiotic fungicides.

The USD/CNY exchange rate in this newsletter is USD1.00=CNY 6.3572 on 1 June, 2021, sourced from the People's Bank of China. All the prices mentioned in this newsletter will include the VAT, unless otherwise specified.

Fungicides China News is a monthly published newsletter, which can be downloaded in PDF format. The subscription mode for this newsletter is yearly and the subscriber will receive 12 issues per year.

DESCRIPTION

Fungicides China News provides you with real-time intelligence on China's fungicides market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 15 issues in total.

The development of Chinese agriculture has increased demand for fungicides significantly in recent years, but the industry is now crying out for capital, more advanced technology and higher quality products. China's tightening environmental regulations are also having a great effect on producers.

Fungicides China News will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire fungicides industry chain, from raw materials to end consumption. This includes:

Breaking news from China and abroad

The latest market data, including price information for raw materials, intermediates and end products, import/export data, production, consumption, operating rates, etc.

In-depth analysis of market trends, Chinese government policy, the performance of leading Chinese producers, M&A, new technologies, and more

Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and

government organizations

Contents

Headline

Editor's Note
