Abstracts

Since 2023, the global pesticide market underwent destocking. In H1 2024, pesticide prices stabilised after narrowing, with some experiencing a slight rebound. Overall, prices gradually returned to a more rational level during this period.

This report is an analysis of pesticide prices from January to June 2024. CCM combines multi-layer data and information resources of industries, markets and enterprises to conduct in-depth analysis of the changing trend of pesticide prices, analyze the past reasons, predict the future trend, and provide references for investors and corporate decision makers.

In this report, CCM will analyze pesticide prices in China from the following aspects:

Overview of China's pesticide industry as of July 2024

Price analysis of selected herbicides in China, Jan.–June 2024

Price analysis of selected insecticides in China, Jan.–June 2024

Prices analysis of selected fungicides in China, Jan.–June 2024
