Abstracts

Herbicides China Monthly Report provides you with real-time intelligence on China's herbicides market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China's herbicides output has grown rapidly in recent years to fuel rising demand in both the domestic and export markets, and production should continue to expand for the next few years.

However, the industry is also facing a number of long-term challenges, including low market concentration, poor R&D investment, increasing costs due to China's tightening environmental regulations and growing crop resistance to key products such as glyphosate.

Herbicides China News will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire herbicides industry chain, from raw materials to end consumption. This includes:

Breaking news from China and abroad

The latest market data, including price information for raw materials, intermediates and end products, import/export data, production, consumption, operating rates, etc.

In-depth analysis of market trends, Chinese government policy, the performance

of leading Chinese producers, M&A, new technologies, and more

Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and government organizations

Contents

Headline

Editor's note
