## Abstracts

Welcome to the June Issue of Herbicides China News.

This newsletter will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire herbicides industry chain, from raw materials to end consumption. It includes breaking news from China and abroad, the latest market data (price, import & export, production, consumption, operating rates, etc.), in-depth analysis of market trends, Chinese government policy, performance of leading Chinese producers, M&A, new technologies, and expert commentary from industry insiders.

Here is the Editor's Note for you to know about the June issue specifically:

As for market dynamic, the targets of reaching carbon dioxide emissions peak and carbon neutrality and normalize environmental supervision have pushed forward stricter requirement for the development of pesticide industry and promoted a more obvious trend of industrial transfer to western China.

As for price, slack season of herbicide in China started in June, resulting to decreasing demand. Therefore, most herbicide prices went down this month. However, the price of organophosphorus herbicides such as glufosinate-ammonium and glyphosate bucked the trend and went up, with the support of overseas demands.

As for company dynamic, Inner Mongolia's 5,000 t/a mesotrione TC and 3,000 t/a metamitron TC production lines and supporting facilities passed acceptance check; Lianhe Chemical plans to absorb all assets, liabilities, rights and businesses of Lianhetech Yancheng; ADAMA Huifeng intends to launch a 10,000 t/a 2,4-D-ethylhexyl TC technical transformation project in its plant located in Dafenggang Petrochemical New Material Industrial Park and the EIA of the project has been approved in principle.

As for policy dynamic, Economy and Information Technology Department, the Ecology and Environment Department and the Emergency Management Department of Zhejiang Province jointly issued the notice of upgrading chemical parks to promote normative development.

The USD/CNY exchange rate in this newsletter is USD1.00=CNY 6.3572 on 1 June, 2021, sourced from the People's Bank of China. All the prices mentioned in this newsletter will include the VAT, unless otherwise specified.

Herbicides China News is a monthly published newsletter, which can be downloaded in PDF format. The subscription mode for this newsletter is yearly and the subscriber will receive 12 issues per year.

## **DESCRIPTION**

Herbicides China News provides you with real-time intelligence on China's herbicides market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China's herbicides output has grown rapidly in recent years to fuel rising demand in both the domestic and export markets, and production should continue to expand for the next few years.

However, the industry is also facing a number of long-term challenges, including low market concentration, poor R&D investment, increasing costs due to China's tightening environmental regulations and growing crop resistance to key products such as glyphosate.

Herbicides China News will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire herbicides industry chain, from raw materials to end consumption. This includes:

Breaking news from China and abroad

The latest market data, including price information for raw materials, intermediates and end products, import/export data, production, consumption, operating rates, etc.

In-depth analysis of market trends, Chinese government policy, the performance of leading Chinese producers, M&A, new technologies, and more

Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and government organizations

## Contents

Headline

Editor's Note

Column 1 Market Analysis

More obvious trend of Chinese pesticide industrial transfer to west

Price of dicamba TC keeps decreasing in recent years

Price of organophosphorus herbicide still up in end-June

Column 2 Company Dynamics

Mesotrione TC and metamitron TC production lines of Inner Mongolia Zhonggao pass acceptance check

Sichuan Fengshan to build production line for intermediates used for synthesizing mesotrione

Lianhe Chemical to absorb Lianhetech Yancheng

EIA of ADAMA Huifeng's 2,4-D-ethylhexyl technical transformation project approved in principle

Column 3 Paraquat and Pyridine

Price of pure pyridine in China ascends in end-June, 2021

FOB price of paraquat TK in China increases in end-June, 2021

Column 4 Import and Export Analysis

China's export of quizalofop-ethyl to main destinations in Q1 2021

Column 5 Registration

China to approve registration of new carfentrazone-ethyl TK

Column 6 Policy

Zhejiang Province to upgrade and transform chemical parks to promote normative development

Column 7 News in Brief

ADAMA acquires 51% shares of ADAMA Huifeng

Ningxia raises environmental thresholds of admittance for pesticide projects

6 materials listed in Catalog of Classification and Types of Precursor Chemicals

New regulation for hormone herbicides to take effect in southeastern Brazil since June, 2022

Net profit of Luba Chem in 2020 surging by 155.62% YoY

Syngenta Group projects to be listed on SSE STAR market before June 2022

Nantong Jiangshan completes research on synthesis technique of glufosinate-ammonium and glufosinate-p

Interim Measures for Administration of Agricultural Wastes of Weifang City to take effect since 1 July

Column 8 Price Update

Ex-works prices of key herbicide raw materials in China, 8 June, 2021

Ex-works prices of main herbicides in China, 8 June, 2021

Shanghai Port prices of main herbicides in China, 8 June, 2021

FOB Shanghai prices of main herbicides in China, 8 June, 2021
