## Abstracts

From 2009 to 2011, in order to occupy more market share, Chinese titanium dioxide enterprises prefer enlarging their own capacity to merging or acquiring another company. The major reasons are the identical product structure and proficient sulfate technology among the manufacturers. In addition, titanium dioxide production is widely distributed in about 20 provinces. What are the latest enterprises dynamics in recent years?

In terms of domestic titanium dioxide international trade, the import volume of titanium dioxide fluctuates approximately between 20,000 tonnes per month and 27,000 tonnes per month from Jan. 2010 to Sept. 2011, while the export volume soars from approximately 10,000 tonnes per month to 40,000 tonnes per month. What is the latest international trade of titanium dioxide in China?

Moreover, being a high pollution industry, environmental protection plays a key role in domestic titanium dioxide industry development. In recent years, Chinese government has been issuing stricter and stricter environmental policies, which has been impacting Chinese titanium dioxide industry. What are the latest regulations of titanium dioxide in China? You can find the answers in this report.

This report combines CCM International's expertise in the market research regarding the highlighted case of titanium dioxide. Highlights of this report are listed as follows:

Enterprises dynamics of titanium dioxide in China

International trade of titanium dioxide in China

Relevant policies of titanium dioxide in China

## Contents
