## Abstracts

Influence factors for the development of pesticide industry in China are detailedly analyzed from the aspects of policies factors, social environment, economic factors, environmental/natural factors, and technological factors.

## Contents

### **EXECUTIVE SUMMARY**

### **METHODOLOGY**

### **I-1 POLICIES FACTORS**

Pesticide manufacturer approval policies  
Pesticide registration administration policies  
Sewage discharge regulations related to pesticide  
Outlook

### **II SOCIAL ENVIRONMENT**

II.1 Characteristics of pesticide users  
II.2 Urbanization  
II.3 Controversial issue of safety of GM Crops

### **III ECONOMIC FACTORS**

### **IV ENVIRONMENTAL/NATURAL FACTORS**

SITUATION OF CROP CULTIVATION (STRUCTURE AND AREA)  
SITUATION OF GM CROPS  
SITUATION OF NON-TILLAGE CROPS  
PEST AND DISEASE OCCURRENCE AND RESISTANCE

### **V TECHNOLOGICAL FACTORS DISCLAIMERS**

## List Of Tables

### LIST OF TABLES

Table I.1 Major administrations and policies on pesticides or pesticide industry in China

Table I.2 New entrance threshold stipulated in the Notice No. 485 [2008]

Table I.3 Contrast of pesticide enterprises' registration capital between current standard and "Pesticide Production Entrance Conditions (draft)", million USD

Table I.4 Restricted pesticides in "Pesticide Production Entrance Conditions (draft) [2009]"

Table I.5 New polices issued in recent two years for pesticide industry in China

Table I.6 Components of effluent standards of pollutants for pesticide industry, 2008

Table I.7 Effluent standards of pollutants for heterocyclic pesticides industry, mg/l

Table I.8 Integrated wastewater discharge standard, GB8978-1996, Mg/l

Table I.9 Environmental protection policies and environmental cost in pesticide industry in China, as of August 2010

Table IV.1 Global planting area of GM crops, 2000~2009, million hectare

Table IV.2 Non-tillage cultivation system development plan in China, million ha.

Table IV.3 Advantages of non-tillage cultivation technology

Table IV.4 Areas of diseases and insect pests, breakdown by major traditional crops, 2003-2010

Table IV.5 Areas of diseases and insect pests of the major traditional crops, breakdown by disease and pests, 2003-2010

Table IV.6 Areas of diseases and insect pests, breakdown by major cash crops, 2006-2010, million ha.

Table IV.7 Areas of diseases and insect pests on major cash crops (vegetable, apple, orange), breakdown by diseases and pests, 2006-2010

Table IV.8 Common pesticide-resistant insect pests and diseases in China

Table V.1 Technologies to be greatly promoted in the coming three years in China

## List Of Figures

### LIST OF FIGURES

Figure III.2.1 Per capita disposable income of urban residents in China, 2000~2009

Figure III.2.2 Per capita net income of rural residents in China, 2000~2009

Figure IV.1 China's crop planting area, 1991~2009

Figure IV.2 Comparison of China's crop planting area, 2002 and 2009

Figure IV.3 Planting area of major grain crops in China, 1991-2009

Figure IV.4 Global GM crops planting area, 1996~2009

Figure IV.5 Insect-resistant GM crops planting area in China, 1999~2009

Figure IV.6 Total stricken area of crop diseases and insect pests, 2003~2010

Figure IV.7 Structure of grain loss caused by plant diseases, insect pests and weeds, 2009
