Abstracts

Insecticides China Monthly Report provides you with real-time intelligence on China's insecticides market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China's insecticides market has grown rapidly in recent years, almost tripling in value between 2007 and 2013, and China is now a leading exporter of insecticides.

However, the industry faces a battle to adapt to tightening environmental regulations and the banning of several highly toxic products.

Insecticides China News will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire insecticides industry chain, from raw materials to end consumption. This includes:

- Breaking news from China and abroad

- The latest market data, including price information for raw materials, intermediates and end products, import/export data, production, consumption, operating rates, etc.

- In-depth analysis of market trends, Chinese government policy, the performance of leading Chinese producers, M&A, new technologies, occurrence of pests, and more

Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and government organizations
